INTERNSHIP

Web developer   Jul 24 — Aug 24
CodSoft
- Developed and deployed multiple interactive web projects using modern web technologies such as HTML, CSS, JavaScript and React. Collaborated on optimizing web performance and responsiveness, improving user engagement by 25%.
- Demonstrated strong problem-solving skills by tackling complex coding challenge.
- Implement responsive user interfaces, ensuring seamless functionality across devices.

Web Developer   Apr 24 — May 24
Octanet
- Gained hands-on experience in a fast-paced, innovative environment, enhancing technical skills in web development.
- Contribute to various projects, improving coding practices and adaptablity in a professional setting.
- Recognized for efficiently learning and implementing new technologies, contributing to team success.

PROJECTS

StyleGenius – AI Outfit Planner   Feb 25 Present
- Developed an AI-powered outfit generator that recommends personalized clothing combinations based on color, style, and occasion, improving user engagement by 40%.
- Built a dynamic wardrobe manager with image upload, real-time previews, and categorization, reducing user outfit planning time by 50%.
- Optimized frontend performance, achieving a 20% faster load time through lazy loading and efficient DOM rendering.
- Designed a mobile-first, responsive UI with interactive elements (tabs, sliders, and hover effects), ensuring 100% cross device compatibility.

Weather Forecast   Oct 24 — Oct 24
- A web app that provides real-time weather information for any city.
- Fetches data from a weather API, displaying city, country, temperature, and local time.
- Includes images to represent current weather conditions for better user experience.

CERTIFICATIONS

- Oracal Academy for Database Programming with SQL
- Git & GitHub bootcamp
- Generative Ai

Interests

Open-source contribution, Travelling, Chess, New Tech, Dance.
